The Department of Employment Affairs and Social Protection is providing a new payment of €350 per week that is available to all employees and the self-employed who have lost employment due to the COVID-19 pandemic.
The self-employed will be eligible for this payment directly from the Department of Employment Affairs and Social Protection, rather than the Revenue scheme (below).

**COVID-19 Wage Subsidy Scheme**

This scheme, operated by the Revenue Commissioners, enables employees whose employers affected by the COVID-19 Pandemic to receive significant supports directly from their employer. The operation of the Temporary Wage Subsidy Scheme will be available to impacted employers across all sectors who keep employees on the payroll throughout the COVID-19 Pandemic, meaning employers can retain links with employees for when business picks up after the crisis.

The subsidy scheme will refund employers up to a maximum of €410 per each qualifying employee. The scheme applies both to employers who top up employees’ wages and those that aren’t in a position to do so.

Employers are encouraged to facilitate employees by operating the scheme, by retaining employees on their books and by making best efforts to maintain a significant, or 100% income, for the period of the scheme. Further information is available on the Revenue Commissioner’s website at this link [here](#).
